EXPONENTIAL HARVEST TRAINING IN MONTROSE

On April 28th, the GCA team will be doing an Exponential Harvest Training at Church 180 in Montrose!

I'm inviting you to make plans to attend this training as it will help provide tools to share your faith with others.

Laurie and I will be in town prior to Sunday and we would love to set up times to meet up with you in Montrose and Grand Junction!

More on this in the next newsletter!

Richard & Laurie Godsil

We are so thankful for your partnership which encourages us to continue investing in children, families and pastors here in Orlando and around the world!

TEACHING CHILDREN & ADULTS

We are so happy to serve in our local church when we are not traveling around the globe for Jesus.

Laurie has been serving as Crossroads Impact Church's Children's Director for the past 3 years.

She oversees multiple teams and volunteers who set up and tear down every Sunday and teach babies, toddlers and elementary students.

Besides being the Director, she fills in when needed.

The children and parents are always greeted by her smile and hugs!

In this stage of ministry, the tables have turned as I now help Laurie out on Sunday's by teaching, setting up, tearing down, playing games and doing security.

Laurie was so supportive of my youth ministry as she worked alongside of me for many of the 40 years we worked with youth.

Together with five other instructors, I taught a course on "Sharing Your Faith!" in January at Crossroads Impact Church. I enjoyed introducing GCA and the One Minute Witness tool to the participants.

Our Sad News.....

On January 22nd, we said good-bye to our furry companion of 11 years.

Patches was a joy to so many in Montrose and here in Florida.

He had such compassion towards people who were

sick, lonely or sad. Patches loved visiting my mother during her final months - giving her a kiss on her cheek and then sleeping at her feet on the bed.

He woke me up after my surgery, which made me tell Laurie about it - that's when I was slurring my words - my first TIA. Patches was looking out for me.

Patches was a great furry friend who helped us with our ministry. We were blessed to have had him in our lives!

Prayer Requests:

- For our continued recovery and health
• Financial Support Raising
• For Christians in Manipur, India who are being attacked
• Future international travel

Love, Richard & Laurie
